EB-1 OR Approved in one day

EB-1 OR Approved in one day ^[1]

Submitted by Rajiv S. Khanna on Jun 23rd 2010

EB1 ? Outstanding Researcher ? Seed Technology/Plant Science

This week, we filed an I-140 petition premium processing and received an approval within 24 hours. The applicant had over thirteen years' research experience, some of which was while working for a world-renowned company known for its innovative work in seed technology. We were able to provide substantial documentary evidence of the applicant's original contributions that began as early as his Ph.D. years. The applicant had published some very significant articles that changed the course of research for many of his peers. Thus, his publications were cited heavily in top scientific journals with high impact factors. We were also able to supply copies of articles featuring the applicant and his work. The applicant had also been invited to participate on a national advisory board for a prominent society due to his reputation in the scientific community. Reference letters from leading experts clearly defined this applicant as one of the very top scientists in this unique specialty. The 24-hour turn around was a very pleasant surprise indeed.

Green Card:

Form I-140 ^[2]

Outstanding Researcher, Professor ^[3]

Profession/Occupation:

Biologists ^[4]
