## EB-2-NIW?Physician in MUA

### EB-2-NIW?Physician in MUA <sup>[1]</sup>

Submitted by Chief Editor on May 30th 2013

We represented a physician working for a healthcare network within several counties of a Medically Underserved Area (MUA). Initially, we submitted the required documents, but the tricky issue was the division of the physician's service over several counties. The approval in this case required that we work closely with officials from the State Health Department to provide proper documentation and verification of the full-time nature of the job, albeit across several areas and proof of physician shortage within each area. At the I-140 stage of the NIW, USCIS issued a relatively minor Request for Evidence requesting a recently dated full-time employment contract listing the full, required period of service.

We submitted the contract, and the case was approved within a few weeks.
