USCIS Immigrant Fee

- The USCIS Immigrant Fee is not an immigration benefit and payment of the fee does not authorize admission to the United States or create a lawful status in the United States.
- The USCIS Immigrant Fee can be paid by an incoming immigrant prior to entering the United States on an immigrant visa. An immigrant also can have his or her USCIS Immigrant Fee paid by an attorney or accredited representative, relative, or any person who is voluntarily making the immigrant fee payment on the immigrant's behalf.

Important Notes:

- USCIS captures your Internet Protocol address and your web browser information when you file an application, petition, or request or make a fee payment.
- USCIS cannot electronically process fee waivers in USCIS ELIS at this time. Payment processing is completed entirely through the Department of Treasury's secure Pay.gov system. USCIS will not store or have access to your payment or credit card information.
- NEVER** give out your USCIS ELIS account number or password to another individual or allow another person to use your USCIS ELIS account and password to file an application, petition, or request or make a fee payment.

You currently do not have any cases pending or in draft status.

If you choose not to file your application, petition, or request today, the system will save a draft of your application, petition, or request for 30 days.

If you do not file your application, petition, or request within 30 days, all drafts of your request will be deleted and your USCIS ELIS account will be deleted.

If your account is deleted, you will need to create a new account in USCIS ELIS before you can file a new application, petition, or request.

If you have previously filed a application, petition, or request in USCIS ELIS, your online account still exists. Only new applications, petitions, or requests that remain in a "DRAFT" state will be deleted after 30 days.
